

Chapter 8 Review	281
Chapter 9 DNA Mutations and Genetic Engineering	284
9.1 Mutations and Mutagens	286
<i>Thinking Lab: Identifying Mutations and Predicting Their Consequences</i>	291
9.2 The Sequence of Life	293
<i>Investigation 9-A: Gel Electrophoresis</i>	300
9.3 The Chimera: From Legend to Lab	303
Biology Magazine: Using Genes to Clean Up the Environment	308
9.4 Transforming Animal DNA	312
Biology Magazine: Medicinal Pigs and Other Clones	317
Chapter 9 Review	319
Unit 3 Project: Cancer: Facts Versus Fiction	322
Unit 3 End of Unit Review	324
UNIT 4 	
Evolution	330
Chapter 10 Introducing Evolution	332
10.1 Diversity of Life	334
<i>Thinking Lab: Changes in Peppered Moth Populations</i>	335
<i>Investigation 10-A: Diversity Within a Species</i>	336
10.2 Developing the Theory of Evolution ...	340
<i>Thinking Lab: Could Pumpkins Rule Earth?</i>	346
10.3 Evidence of Evolution	349
<i>MiniLab: The Dinosaur-Bird Debate</i> ...	352
Biology at Work: Paleontologist	356
Chapter 10 Review	359
Chapter 11 Mechanisms of Evolution	362
11.1 Population Genetics	364
11.2 The Hardy-Weinberg Principle	371

Biology Magazine:

Biotechnology and Evolution	372
<i>Investigation 11-A: Population Genetics and the Hardy-Weinberg Principle</i>	374

11.3 Mechanisms for Genetic Variation	377
<i>Thinking Lab: An Evolving Disease: Tuberculosis</i>	379
<i>Thinking Lab: Genetic Diversity and Fish Hatcheries</i>	382

Chapter 11 Review	387
-------------------------	-----

Chapter 12 Adaptation and Speciation ... 390

12.1 Adaptation	392
<i>MiniLab: Small Changes, Large Gains</i>	394
12.2 How Species Form	398
<i>Thinking Lab: Leopard Frogs — One Species or Seven?</i>	401

Canadians in Biology:

Sticklebacks and Speciation	402
-----------------------------------	-----

12.3 The Patterns of Evolution	404
<i>Investigation 12-A: Skull Differences in Primates</i>	408
<i>Thinking Lab: Partners in Evolution</i> ...	414
<i>Thinking Lab: Elephant Evolution</i>	415

Chapter 12 Review	417
-------------------------	-----

Unit 4 Project: Searching for the Common Ancestor	420
--	-----

Unit 4 End of Unit Review	422
--	-----

UNIT 5

Population Dynamics

Chapter 13 Ecological Principles

13.1 Where on Earth Do You Find Organisms?	430
<i>Investigation 13-A: Foraging Strategies — A Simulation Experiment</i>	437
13.2 The Structure of Ecosystems	440
<i>Thinking Lab: Shrinking Polar Bears and Expanding Snow Geese</i>	441
